1. ISSUER PROFILE

Sabaf's entrepreneurial model is rendered explicit in its corporate vision, i.e. to combine business decisions and results with ethical values by going beyond family capitalism and opting for a managerial rationale oriented not only towards the creation of value but also towards the respect of values.

The Corporate Governance Model adopted by the Issuer is based, initially, on the decision to strictly separate the interests and choices of the main shareholder – the Saleri family – from those of the Company and the Group, and therefore assign corporate management to managers who are distinct from the main shareholder.

Expansion of the shareholding base following the listing on the stock exchange, admission to the STAR segment (and consequently the Company's voluntary acceptance of stricter transparency and disclosure rules), and the Company's desire to consistently comply with applicable corporate governance recommendations and best practice represent the subsequent steps taken by Sabaf towards compliance by its corporate governance system with a model whose benchmark is that directors act in the Company's interest and with a view to creating value for all the shareholders.

As a further step along this path, Sabaf's management believes that ethics founded on the centrality of the individual and respect for common values, set at the head of the creation of value, are able to help take decisions that are in line with the corporate culture and significantly contribute to assuring the Company's sustainable long-term growth. For this purpose, Sabaf has prepared and published the Charter of Values, prepared in accordance with the existing national and international regulatory principles, guidelines and documents with regard to human rights of corporate social responsibility and Corporate Governance. The document is the governance tool through which Sabaf clearly explains the Company's values, standards of conduct and commitments in relations with all the stakeholders – shareholders, employees, customers, suppliers, financiers, the Public Administration, the community and the environment.

The Charter of Values was approved by the Board of Directors on 11 February 2014 and is available on the website www.sabaf.it under the section "Sustainability".

In line with the Company's "vision" and in accordance with the Charter of Values, the strategic and operational decisions implemented by the Sabaf Group are intended to ensure sustainable development, by balancing business and financial requirements with social and environmental needs.

Sabaf S.p.A. management and control model

Sabaf has adopted a traditional management and control model, consisting of:

- a Board of Directors in charge of company administration and management of Company operations;
- the Board of Statutory Auditors in charge of supervising:
 - compliance with the Law and Bylaws and adherence to principles of proper management in the performance of corporate activities;
 - the adequacy of the Company's organisational structure, internal control and risk management system, and administrative/accounting system;
 - the procedures for effective implementation of the corporate governance rules envisaged in the Code;
 - risk management;
 - the regulatory audit of the accounts and the independence of the auditing firm;
- Shareholders' Meetings (ordinary and extraordinary) called to pass resolutions pursuant to the laws in force and the Company's Bylaws (refer to these for details).

d) Financial instruments granting special rights (pursuant to Art. 123-*bis* (1)(d) TUF)

On 28 April 2016, the Shareholders' Meeting approved the amendment of the Sabaf Bylaws, with the introduction of the "increase of voting rights" pursuant to Art. 127-*quinquies* of Legislative Decree 58/1998, through the insertion of the new articles 5-*bis*, 5-*ter* and 5-*quarter*.

In particular, the attribution of two votes is provided for each ordinary share held on a permanent basis for at least twenty-four (24) months from the date of effectiveness of the enrolment in the "Special List" (referred to in Art. 5-*quarter* of the Bylaws). This list

includes - at their request - the subjects who have requested the increase of the voting rights.

At the date of this report, the following shareholders with holdings greater than 5% are enrolled in the Special List:

Parent company	Shareholder	Number of shares enrolled	% of share capital	Enrolment date

The introduction of the increased voting rights derives from the desire of the Company to encourage investment in the medium-long term, ensuring the stability of the shareholding structure.

Through the mandate of the Shareholders' Meeting on 9 June 2016, the Board of Directors of the Company resolved on the adoption of a regulation for the management of the special list, published on the company website www.sabaf.it, under the section "Investors - Corporate Governance".

A shareholders' agreement (tacitly renewed until 12 January 2016 and valid until 8 January 2019) is in effect for Giuseppe Saleri S.a.p.A., the main shareholder of Sabaf S.p.A. This agreement was made by Cinzia Saleri, born in Brescia on 18 December 1961, Gianbattista Saleri, born in Brescia on 13 November 1963, Ettore Saleri, born in Brescia on 24 April 1973, Giuseppe Saleri, born in Lumezzane on 21 August 1931, Flavio Gnechi, born in Brescia on 15 March 1956 and Mario Mazzoleni, born in Milan on 24 January 1957. It was notified, filed and published in accordance with the law and governs the entire shareholdings held by each one in Giuseppe Saleri S.a.p.A., representing 100% of the share capital. The main purpose of the shareholders' agreement is to coordinate management of the equity investment in Sabaf S.p.A.

On 31 December 2017, the shareholders' agreement signed on 21 January 2016 between Giuseppe Saleri S.a.p.A. and Quaestio Capital Management S.G.R. S.p.A. was terminated due to the expiry of the last commitment envisaged by the Agreement, i.e. the commitment assumed by Quaestio, until 31 December 2017, not to sell the equity investments of Sabaf S.p.A., originally acquired under a purchase agreement by Giuseppe Saleri S.a.p.A.

h) Change of control clauses (pursuant to Art. 123-*bis* (1)(h) TUF) **and statutory provisions for takeovers** (pursuant to Arts. 104, (1-*ter*), and 104-*bis*, (1))

Sabaf S.p.A.'s subsidiaries did not sign any agreements that take effect, are amended or are invalidated by the change of control of the contracting company.

The Company's Bylaws do not make provisions for exemptions with regard to company takeover on the passivity rule pursuant to Art. 104, paragraph 1-*ter* of the TUF or the application of the rules pursuant to Art. 104-*bis*, paragraph 1 of the TUF.

i) Delegations of powers for recapitalisation and authorisations for buyback of treasury stock (pursuant to Art. 123-*bis*, (1)(m) TUF)

Sabaf S.p.A. has no delegations in place for share capital increases.

The Shareholders' Meeting of 27 April 2017 resolved to withdraw, for the part not yet executed, the buyback deed of treasury shares assumed during the session held on 28 April 2016, and, at the same time, to authorise a programme of buyback of treasury shares with a duration of 18 months. The Shareholders' Meeting approved the possibility of organising the treasury shares on a rolling basis, establishing limits and conditions.

The Shareholders' Meeting has therefore granted to the Board of Directors of Sabaf, with express authority of delegating to one or more of its members, powers to implement the resolution. The Board of Directors during the session held on 27 April 2017 gave a mandate to the Director Gianluca Beschi to implement the buyback of treasury shares programme, within the time limits set by the Shareholders' Meeting resolution.

The programme for the buyback of treasury shares has the objective of:

- using, in accordance with Company strategy, treasury shares as part of the transactions related to business plans or agreements with strategic partners or in the framework of investment transactions, or that imply assignation or utilisation of treasury shares;
- offering shareholders an additional tool to liquidate their investments;
- carry out operations to support market liquidity.

For details concerning the above resolution, see the Shareholders' Meeting minutes of 27 April 2017 available on the company website www.sabaf.it, under the section "Investors - Shareholders' Meetings".

In the context of the buyback programme resolved by the Shareholders' Meeting, the Company has purchased globally 148,630 Sabaf shares throughout 2017. At 31 December 2017, the Company holds 381,769 treasury shares, equal to 3.310% of the share capital.

On 26 March 2018, the Board of Directors of Sabaf S.p.A. at the suggestion of the Remuneration and Nomination Committee, with the opinion of the Board of Statutory Auditors, adopted a Policy on the composition of the Corporate Bodies.

This Policy sets out the Company's guidelines on the characteristics considered functional to ensuring an optimal composition of the corporate bodies (Board of Directors and Board of Statutory Auditors), with the aim of guiding the names put forward by the Shareholders when renewing the Corporate Bodies, so that the benefits that can derive from a balanced composition of the Board and Board of Statutory Auditors inspired by criteria of diversity are taken into consideration.

In addition to the provisions of the Laws in force and of Sabaf's Bylaws, the Policy sets out the characteristics and factors considered necessary for the BoD to be able to carry out its assigned tasks more efficiently, take decisions thanks to the contribution of a number of qualified points of view and examine the issues under discussion from different perspectives, also within the framework of the internal board committees established from time to time. Specifically:

- **Independence**. An optimal composition of the Board of Directors is characterised by the presence of non-executive and independent Directors, such as to ensure that their opinion can have a significant impact on the Board's decisions in terms of number, authority, competence and availability of time. Non-executive Directors contribute their specific competences to the board discussions, helping to take informed decisions and paying particular attention to areas where conflict of interest may occur. All independent Directors must meet the independence requirements envisaged by law and by the Corporate Governance Code, as illustrated in the Corporate Governance Manual of Sabaf (paragraph 4.3.3). Non-executive directors must be the majority compared to executive directors and independent directors must be at least 3.
- **Training and professional experience**. In addition to the provisions of the Corporate Governance Code, (Principle 2.P.1.), also implemented within the Corporate Governance Manual of Sabaf, the Company believes that for an optimal composition of the Board of Directors there must be a mix of professionalism and experience suitable to understand the current management, risks and opportunities of the company, in order to guide and adequately support the Sabaf Group in a long-term sustainable growth. In particular, Sabaf considers the following skills and experience to be fundamental:
 - legal and corporate, also with reference to the legislative and regulatory aspects important for listed companies;
 - economic and financial, ability to analyse and interpret financial statement data prepared in accordance with international accounting standards and to evaluate extraordinary transactions;

- *business and managerial*, in the sector in which the Group operates or in adjacent sectors, in the management of international companies, in merger and acquisition transactions;
- *on economic, social and environmental sustainability*.
- **Gender.** In addition to the law provisions on gender distribution (Italian Law 120/2011), it is considered essential to create and maintain a gender balance within the collective body, continuing to ensure that at least one third of the Board of Directors, both at the time of appointment and during the term of office, is made up of Directors of the least represented gender.
- **Age and seniority in office.** With the aim of creating a balance between the need for continuity and renewal of management, it is considered useful to ensure a balanced combination of different seniorities in office - as well as age groups - within the Board of Directors.
- **Numbers.** Taking into account the characteristics described above (including diversity requirements and the presence of an adequate number of independent directors) and, at the same time, the need to ensure the effectiveness and efficiency of the Board's activities, a Board of Directors composed of nine directors is considered to be adequate. Moreover, this plurality guarantees the possibility of setting up within the Board the Committees envisaged by the Corporate Governance Code.

Furthermore, the Policy stresses the need for all Directors to ensure that they have sufficient time to perform their duties diligently and, for this reason, refers to the guidelines adopted by the Board of Directors on the maximum number of positions held in other companies (for more details, see the next paragraph).

The Board of Directors, with the support of the Remuneration and Nomination Committee and the Board of Statutory Auditors, is responsible for monitoring the implementation of the Policy, the results of which will be analysed starting with the renewal of the Corporate Bodies envisaged during the Shareholders' Meeting convened on 8 May 2018.

The Policy on the composition of the Corporate Bodies is published on the company website at www.sabaf.it, under the section "*Investors - Corporate Governance*".

Maximum number of positions held in other companies

To ensure that the position of director is held by subjects that can devote the necessary time to diligently perform their duties, by resolution passed on 28 April 2006 renewed in 2009 and at the meeting of 12 May 2015, and as provided by the Corporate Governance Manual the Board of Directors defined the maximum number of positions as director or statutory auditor that each director may hold at companies listed on regulated markets (also overseas), as well as at financial, banking, insurance or other large companies, also taking account of the fact that they may also be members of the various Committees established within the same Board of Directors.

Specifically:

- for executive directors, the maximum number of positions is 3, not including the offices held within the Group;

- for non-executive directors: a maximum of seven offices, not counting the positions held at the financial companies envisaged in Art. 113 of the Italian Consolidated Banking Act ("Testo Unico Bancario").

The Board of Directors confirmed compliance with the above-mentioned criteria for the directors currently in office at its meeting held on 26 March 2018.

Below we disclose the offices held by current Sabaf directors as directors or statutory auditors of other listed companies, financial, banking and/or insurance companies, and/or large companies.

The Chairman of the Board of Directors ensures that, after their appointment and during their term of office, the directors and the statutory auditors take part in initiatives, in the most appropriate forms, aimed at providing them with adequate knowledge of the activity sector in which the Company operates, the enterprise dynamics and their evolution, the principles of proper risk management, as well as the relevant regulatory framework.

In 2017, the Company continued with the introduction programme so as to offer the opportunity to members of the Board of Directors and the Board of Statutory Auditors to improve their knowledge of the issuer and its subsidiaries.

In particular, during the meeting of the Board of Directors on 26 September 2017, the directors and statutory auditors visited the production facilities, accompanied by the Production Director and the Technical Director, to visit the plants and personally view the technical and organisational innovations launched by the Group in the field of production management in view of industry 4.0.

Moreover, during the meeting of the Board of Directors on 3 August 2017, the Company invited some external consultants to explain to the members of the Board of Directors and the Board of Statutory Auditors the trends of the main macroeconomic indicators at Italian and European level.

Please note that the induction sessions were held during regularly minuted meetings.

4.3. ROLE OF THE BOARD OF DIRECTORS (pursuant to art. 123-*bis*, (2), (d), TUF)

The Board of Directors met nine times during the 2017 financial year. The meetings lasted an average of two hours. The percentages of the participation of each director at the meetings are shown in Table 2 of paragraph 4.2.

Seven meetings are planned for 2018, of which eight have already been held, on 13 February and 26 March, the date of this report.

In order to enable the Board of Directors to carry out its duties with an adequate level of organisation and to carry out a preliminary in-depth examination of the items on the agenda, the Lead Independent Director helps the Chairman ensuring that, given the date set for the Board meeting, the documentation concerning the items on the agenda is communicated to the Directors with reasonable notice, via email and protected by password (usually three or more days' notice)¹.

During the year, the introductory preliminary documentation for the board meetings, including the risk assessment document and the audit plan for 2018, was sent to the Directors by email usually three or more days in advance.

The meetings of the Board of Directors, coordinated and presided over by the Chairman, are always attended by the members of the Board of Statutory Auditors and the managers of Sabaf and other group companies, in charge of the relevant corporate functions concerned by the topics dealt with, invited by the Chairman, also upon request by one or more directors and with the consent of those attending, to provide the necessary in-depth analyses in relation to the items on the agenda. The meetings of the Board of Director are regularly minuted.

In the course of 2017, the Board of Directors met the following heads of the corporate functions:

- Massimo Dora (Technical Director),
- Alberto Cancarini (Production Director and "*Datore di Lavoro*" (Employee) pursuant to Legislative Decree 81/2008),
- Emma Marcandalli (Head of Internal Audit).

*** **

The Board of Directors is responsible for the examination and approval of the long-term plans and the budgets of the Company and the Group, as well as for periodically monitoring their implementation through the information supplied by the CEO in his quarterly reports. In this regard, the Board of Directors viewed and evaluated the risks underlying these plans and the budget and assessed the compatible level of risk, also with reference to the risks that may assume significance in terms of medium-/long-term sustainability.

¹ With the exception of the evaluation of cases of unforeseen situations of necessity or urgency that require the prior information to be limited. In these cases, the Chairman ensures that adequate examinations are carried out during board meetings.

The Board of Directors is also responsible for the definition of the Company's corporate governance system as well as the structure of the Group pertaining to Sabaf.

For 2017, in compliance with the Guideline on the subject, the Board of Directors assessed the overall adequacy of the general organisational, administrative and accounting structure of the Company and its key subsidiaries, as established by the Internal Control and Risk Committee, with particular reference to the Internal Control and Risk Management System. More specifically, the process involved all the corporate players in charge of planning, implementing and/or monitoring the Group's Internal Control and Risk Management System, by collecting the information supporting the evaluation.

The Board of Directors assessed the general business performance, taking into account in particular the information received from the Chief Executive Officer, and by quarterly comparing the results achieved with those planned.

The Corporate Governance Manual envisages that the Board of Directors is responsible for examining and approving in advance any ordinary or extraordinary transactions of Sabaf and its subsidiaries that might have a material impact on its assets, liabilities, operating results and financial position, especially if entailing a potential conflict of interest.

An operational Guideline attached to the Corporate Governance Manual defines the general criteria for identifying transactions of importance, namely:

- transactions reserved to the Board of Directors of Sabaf pursuant to the Bylaws, namely:
 - setting-up or closing of branch offices;
 - transferring the registered office in Italy;
 - mergers in the cases envisaged by Articles 2505 and 2505- bis of the Civil Code, also as recalled due to splitting of Art. 2506-ter of the Civil Code,
 - reducing the share capital if a shareholder withdraws,
- the purchasing or sale of investments, properties and treasury shares,
- the issue of financial instruments,
- the undertaking of unsecured loans, requests to open bank facilities and the release of sureties,
- the undertaking and allocation to third parties of the status of executives, their dismissal, as well as the definition of relations, including economic ones, with executives,
- any other transaction that, separately considered, exceeds the limits set for the Chief Executive Officers of Sabaf.

The Corporate Governance Manual also provides that the Board of Directors is vested with the power to examine and approve any ordinary and extraordinary transactions of Sabaf and its subsidiaries, in which one or more directors have a personal interest or could be bearers of someone else's interest. For this purpose, an operational Guideline of the Corporate Governance Manual governs the operating methods suitable to facilitate the identification and adequate management of these situations.

Finally, as provided for by Consob resolution 17221 of 12 March 2010 on related-party transactions, and in compliance with the "Procedure regulating related-party transactions" which came into force in January 2011 and was subsequently updated in 2012 and 2015, the Board of Directors assessed the transactions with related parties carried out in the

course of the year. No related-party transaction carried out in the year was considered to be of major significance.

During the financial year, the Board of Directors carried out its annual review of the size, membership (including professional competences, managerial skills and seniority) and activities of the Board of Directors and its Committees. After having considered various approaches for evaluation, Sabaf Board of Directors decided, as defined under the guideline attached to the Corporate Governance Manual "Evaluation of the Board of Directors", that the individual directors would evaluate themselves, by filling out and returning specific questionnaires. It then discussed the results at the 19 December 2017 Board meeting. The Company deemed not necessary to avail itself of external consultants.

The Lead Independent Director (Renato Camodeca) is responsible for coordinating the annual assessment and for defining the topics to be discussed at the self-assessment.

The questionnaires distributed to the directors (and compiled in anonymous form) involve the use of multiple criteria (e.g. dimensional, effectiveness, efficiency, professional characteristics, etc.) and cover the following areas of assessment:

- Functioning of the Board,
- Composition and powers of the Board,
- Contributions made by the Board during the reference period,
- Internal Board committees,
- Relations with Top Management (Board of Directors with delegated powers and executives),
- Self-Assessment of individual performance.

The self-assessment questionnaire was completed by all the directors and the results of the assessment were generally positive.

It should be noted that the results of the self-assessment process concerning the composition of the Board and the competence of the Directors were also taken into account in the process of preparing the Policy on the composition of the Corporate Bodies, as described in paragraph 4.2 above.

The Board of Directors did not express any opinions on the managers and professionals whose presence the Board of Directors deemed appropriate during the board meetings.

In 2017, the Shareholders' Meeting did not authorise any exemptions, generally or in advance, to the prohibition on competition required by Article 2390 of the Italian Civil Code.

4.4. DELEGATED BODIES

Chief Executive Officer

On 23 January 2017, Alberto Bartoli – appointed by the ordinary shareholders' meeting of 5 May 2015 – resigned from the role of Director and Chief Executive Officer, with effect from the date of the shareholders' meeting to approve the 2016 financial statements, occurred on 27 April 2017. On 27 April 2017, the Board of Directors approved the interim assignment to Gianluca Beschi - Executive Director and Administration, Finance and

Control Director - of the powers already assigned to Bartoli, until the appointment of a new director. On 3 August 2017, the Board of Directors appointed Pietro Iotti as Chief Executive Officer, effective as from 12 September 2017.

The Chief Executive Officer is responsible for running the Company according to the strategic guidelines defined by the Board of Directors. The Chief Executive Officer coordinates all corporate functions, guaranteeing a rapid decision-making process and ensuring efficient and transparent management. The Chief Executive Officer has wide-ranging powers with regard to all areas of operation of the company, with powers of attorney for up to one million euros per transaction. The Chief Executive Officer of Sabaf can be identified as the main responsible for the management of the company; the situation of interlocking directorate is not applicable (Pietro Iotti has not undertaken the office of director in another Issuer whose chief executive officer is a director of Sabaf S.p.A.).

Chairman and Vice Chairmen of the Board of Directors

The Chairman of the Board of Directors, Giuseppe Saleri, is the main shareholder of Sabaf S.p.A.; the Vice Chairmen, Ettore and Cinzia Saleri, are the children of the Chairman, and Roberta Forzanini is the spouse of Gianbattista Saleri, son of the Chairman.

The Chairman and Vice Chairmen are vested with broad powers, with separate signature rights, within the limit of € 500,000 per individual transaction. This authority has been delegated to the Chairman and Vice Chairmen to assure more streamlined management and is specifically designed to ensure management gaps are avoided, should the CEO be unable to exercise his functions.

Executive Committee (pursuant to Art. 123-bis (2)(d) TUF)

Taking into consideration the characteristics, dimensions and organisational structure of the Issuer, the Board of Directors has not - at the current time - identified the need to set up an Executive Committee.

Information flows toward the Board of Directors

The CEO reports quarterly to the Board of Directors and to the Statutory Auditors on the activities conducted in exercising the powers conferred on him. An operational Guideline of the Corporate Governance Manual regulates the flow of information to the Board of Directors and Statutory Auditors, also in order to comply with the reporting obligations provided by Art. 150 (1) of the TUF; in particular, the Chief Executive Officer summarises periodically through written reports the following activities and operations carried out by Sabaf and its subsidiaries:

- activities conducted in the period,
- transactions with strategic, economic, capital or financial significance for the Group,
- transactions in potential conflict,
- related-party transactions,
- atypical or unusual transactions or those concluded in non-standard conditions,

The current composition of the Board of Directors envisages 1 (one) executive director, Gianluca Beschi, Administration, Finance and Control Director (CFO), in addition to the Chief Executive Officer (Pietro Iotti), the Chairman (Giuseppe Saleri) and the Vice Chairmen (Ettore and Cinzia Saleri and Roberta Forzanini) mentioned in the previous paragraphs.

4.6. INDEPENDENT DIRECTORS

The current composition of the Board of Directors includes 5 (five) non-executive and independent directors.

With the abstention of those concerned, the Board of Directors assesses whether the independent directors meet the independence requisites as soon as they are appointed and, subsequently, once a year, paying more attention to substance than to form.

With reference to the independent directors in office for the three-year period 2015-2017, such assessment was performed upon Board appointment (5 May 2015) and, subsequently, on 14 February 2017 and 13 February 2018: on this occasion the declarations of the independent directors were delivered. The Board of Directors assessed the existence of the requisites of independence pursuant to the Code and the TUF regarding the directors: Renato Camodeca, Giuseppe Cavalli, Fausto Gardoni, Nicla Picchi and Anna Pendoli.

For the purpose of assessing Directors' independence, the Company referred to the criteria set out in Article 3 of the Corporate Governance Code, incorporated within the Corporate Governance Manual, and further requirements set out by the Regulation of Borsa Italiana markets for the STAR segment.

At its meeting on 26 June 2015, and subsequently on 2 March 2017 and 8 March 2018, the Board of Statutory Auditors checked and certified the proper implementation of the criteria and procedures adopted by the Board of Directors to determine the independence of the directors who qualify as such.

In 2017, the independent directors met without the other directors. This meeting took place on 19 December 2017 and among the items on the agenda was the analysis of the self-assessment questionnaires of the Board of Directors for the year 2017. The Board of Directors was promptly informed of the results of this meeting, formalised in an official meeting minutes.

At the meetings of the Internal Control and Risk Committee and meetings with the Supervisory Bodies, the Independent Directors were able to assess the completeness and timeliness of the information provided to them at least three days before every meeting of the Board of Directors and to identify and discuss beforehand any issues that may have emerged.

4.7. LEAD INDEPENDENT DIRECTOR

Since the Chairman of the Board of Directors is the main shareholder of Sabaf, the Board of Directors meeting held on 5 May 2015 has renewed the designation of Renato Camodeca as Lead Independent Director.

This person will remain in office for the entire term of the Board of Directors and is a point of reference and coordination for the applications and contributions of non-executive directors, with particular reference to independent directors.

During the financial year, the Lead Independent Director has collaborated with the Chairman to ensure that the Directors received complete and prompt information on the adoption of resolutions by the Board of Directors and the exercise of its powers of direction, coordination, and supervision of Company and Group activities.

The Lead Independent Director has also coordinated the Board of Directors self-assessment process.

5. HANDLING OF CORPORATE INFORMATION

The CEO manages the processing of confidential information in accordance with a specific procedure, adopted by the Board of Directors, for internal management and external disclosure of documents and information concerning the Company. Special attention is paid to the management of privileged information, as defined by Article 181 of the TUF (or information of a precise nature, not yet made public, concerning Sabaf - directly or indirectly - or one or more financial instruments of the Company and that, if made public, could have a significant effect on the prices of such financial instruments or on the prices of related derivative financial instruments).

The aim of this procedure is to ensure that the company handles confidential information carefully, safely and privately, and discloses any insider information in a symmetrical, non-selective, prompt, complete and adequate manner.

Corporate officers are obliged to maintain the confidentiality of information and documents obtained in the performance of their duties and to comply with the procedure referred to in this section.

6. INTERNAL COMMITTEES OF THE BOARD OF DIRECTORS (pursuant to art. 123-*bis*, (2)(d) TUF)

The Board of Directors can set up one or more Committees within the Board, such Committees being responsible for making proposals or providing consultancy on specific topics and having no decision-making powers.

Following the appointment of the new administration and control bodies, on 5 May 2015 the Sabaf Board of Directors established the Remuneration and Nomination Committee (chapter 7) and Internal Control and Risk Committee with functions also of Related Parties Committee (chapter 9), in line with the provisions of the Corporate Governance Code.

Taking into consideration the characteristics, dimensions and organisational structure of the Issuer, the Board of Directors has - at the current time - deemed it necessary to attribute the functions of the Nomination Committee to the Remuneration Committee thereby establishing the Remuneration and Nomination Committee, composed of 4 non-executive directors, with an independent majority.

The Board of Directors has also assigned the functions carried out by the Related-Party Committee to the Internal Control and Risk Committee, especially the duty to support the Board of Directors, through reasoned opinion, in any amendments and supplements to the "Procedure regulating related-party transactions".

No further committees responsible for making proposals and providing advice have been established other than the ones envisaged in the Code.

- analysed the results of the Internal Audit operations conducted during the year,
- analysed the actions undertaken by the Information Systems Management of Sabaf regarding Information Security, for the strengthening of the security of the IT systems, as well as the results of the IT Risk Assessment, carried out with the support of an external consultant.

Please note that, in the absence of elements deemed adverse by the Board of Directors, in 2017 the Committee did not carry out specific preliminary investigation activities.

With resolution dated 14 November 2017, the Board of Directors approved the text of the new Remuneration Policy for 2018 and acknowledged the conclusion of the employment agreement with the new Chief Executive Officer Iotti. This agreement includes the payment of a variable remuneration that envisages certain conditions that depart from the provisions of the current general Sabaf Remuneration Policy. Therefore, during the meeting of 12 December 2017, the Control and Risk Committee expressed a favourable opinion on the Company's interest in carrying out this transaction.

In performing its functions, the Control and Risk Committee has access to the information and company departments necessary to fulfil its duties, and may also use external consultants, within the terms established by the Board of Directors.

The Internal Control and Risk Committee has an expenses fund of € 30,000 at its disposal, established by the Board of Directors to carry out its duties. This fund was not used in 2017.

10. INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The annual process of identifying and assessing the main corporate risks was carried out in the second half of 2017, and was approved by the Board of Directors with the favourable opinion of the Control and Risk Committee having heard the Board of Statutory Auditors and the Director in charge of the Internal Control and Risk Management System, at the meeting held on 19 December 2017. On that occasion, the Issuer took into account not only risks deriving from the external context in which Sabaf operates, but also the strategic, organisational and "execution" risks that may be significant from the point of view of sustainability in the medium/long term.

In the Corporate Governance Manual, the Board of Directors has defined the guidelines for the Internal Control and Risk Management System so that the main risks relating to the Issuer and its subsidiaries are properly identified, measured, managed and monitored, as well as being compatible with the strategic objectives of the Group.

The Internal Control and Risk Management System applies to Companies and strategically significant subsidiaries (Faringosi Hinges, Sabaf do Brasil and Sabaf Turkey), identified as such by the Sabaf Board of Directors.

The Internal Control and Risk Management System is the collection of rules, procedures and organisational structures designed to ensure, with reasonable certainty, the achievement of the following objectives:

- adequate control of corporate risks,
- effectiveness and efficiency of corporate operating processes,
- safeguarding capital integrity,
- completeness, reliability and promptness of accounting and management information,
- compliance of corporate behaviour with laws, regulations, directives and corporate procedures.

The fundamental components of Sabaf's Internal Control and Risk Management System and of the strategically significant subsidiaries are based on:

- the organisation of the Internal Control and Risk Management System, created by the collection of players involved to whom different roles and responsibilities are assigned (as specified later on);
- the periodic process of identification, assessment and monitoring of the main risks of the Group (as specified below);
- the methods and mechanisms for the practical implementation of control principles, reflected in the documentation constantly produced and updated by the Company to define the rules of behaviour, the division of tasks and the delegation of responsibilities. This includes the following:

- the Charter of Values,
- the arrangements involving the corporate and organisational structure and the powers granted,
- the segregation of duties in the organisation (also reflected in the corporate information systems), aimed at preventing excessive concentration of decision-making/authorisation, implementation/executive, accounting and verification/control powers and functions,
- the development and professional growth policies for personnel,
- the systems for defining corporate targets and for verifying and monitoring corporate performance,
- the management and economic-financial reporting systems, as well internal and external communication systems,
- the body of corporate procedures, including those under the scope of the Organisational Model adopted by Sabaf to implement Legislative Decree 231/2001 and those established pursuant to Law 262/2005 on the subject of administrative-accounting procedures for the preparation of the financial statements;
- procedures for the preparation of the financial statements, the continuous monitoring and verification procedures conducted at various levels of the organisation, both under the scope of corporate processes and through independent structures.

The Internal Control and Risk Management System for financial information

Sabaf considers the Internal Control and Risk Management System for financial information an integral part of its risk management system.

In this regard, as far back as 2008, Sabaf integrated the activities relating to the management of the Internal Control and Risk Management System on financial reporting in its Internal Audit and compliance process (i) preparing a unique Audit Plan, with a shared programme of tests, organised according to specific control objectives (e.g. operational, compliance with Law 262/2005 and Legislative Decree 231/2001, security and profiling of corporate information systems) and (ii) assigning the carrying-out of the interventions to a unique structure, responsible for reporting the outcomes to the competent control bodies.

In addition to this, the Company carries out an annual risk assessment at the Group level, supplementing it for specific aspects relating to individual areas of compliance, including the one related to Law 262/2005.

With specific reference to the Internal Control and Risk Management System on financial reporting, the Group defined its own Accounting Control Model which defines the rules that the Group follows for the purpose of:

- aligning itself to the regulations on preparing corporate accounting documents, as well as all deeds and communications of an economic, capital or financial nature disclosed to the market,

- describing the components of the Control Model adopted by the Company,
- indicating the responsibilities of the Manager Responsible for the preparation of the Corporate Financial Documents and other players involved in the process,
- establishing a certification process (for both Sabaf and the subsidiaries),
- guaranteeing dependability, accuracy, reliability and timeliness of the financial information.

Note that, in 2017, the Accounting Control Model did not require any updating. The internal instructions and standards are added to the Model (including, for instance, the powers of attorney system, the reporting instructions, the supporting information systems, the visits to Group company offices) through which the Parent Company guarantees an efficient exchange of data with the Subsidiaries.

The Accounting Control Model relies on the following key elements:

- general control environment,
- identification process of the main risks associated with economic, capital and financial information and the related controls, according to a top down approach which focuses on the main risk areas,
- significant corporate procedures system for the purpose of preparing and disclosing economic, capital and financial information (administrative-accounting procedures),
- regular evaluation of the adequate and effective application of the controls identified,
- internal certification (within the Group) conducted regularly to guarantee the completeness and correctness of the information generated by the processes governed and for information surrounding the changes made to the processes managed,

and this includes the involvement of a large number of players, with some of the main ones listed below:

- Board of Directors,
- Chief Executive Officer,
- Manager Responsible for the preparation of the Corporate Financial Documents,
- Investor Relator,
- Heads of significant/involved functions,
- Director of Information Systems,
- CEOs and heads of management structures of subsidiaries.

Sabaf keeps its Model updated with regard to changes in operations and/or organisation, the results of the risk assessment, regular audit activities, as well as changes to the systems and processes involving the structure.

There is an annual process under the scope of the Group's Accounting Control Model, formalised and structured - which is the responsibility of the Manager Responsible for the preparation of the Corporate Financial Documents, supported by the Internal Audit department - aimed at identifying the main corporate processes, significant for the purpose of "262" and the main Group companies that give rise to them are involved.

In line with the best practices, the process of identifying and assessing the processes and organisational units takes into account both qualitative criteria (linked to the visibility of the Manager Responsible for the preparation of the Corporate Financial Documents and his structure in the individual processes and the degree of control; the intrinsic risk level of the underlying process; the complexity of calculation and subjectivity of the estimates) as well as quantitative criteria (related to the importance of the values generated by the individual financial reporting processes).

The 2017 evaluation highlighted the significant processes that were subject during the year to timely audit operations with regard to specific control objectives (*existence, completeness and accuracy, evaluation, rights and obligations, presentation and information*).

The outcomes of the audits into the single processes are reported by the Internal Audit department to the Manager Responsible for the preparation of the Corporate Financial Documents and to Control and Risk Committee, as well as to those attending the meetings with the Control Bodies, who are informed of the results of the interventions at the scheduled meetings.

On an annual basis, the Head of Internal Audit notifies the Control and Risk Committee, through a detailed report, of the adequate and effective operation of the internal control and risk management system relating to the areas/processes that were checked.

For 2017, this report was presented to the Control and Risk Committee at the meeting on 6 February 2018.

Any shortcomings/improvement measures identified during the audits and reported as described above, require the immediate identification of the actions to be taken, as well as regular monitoring of the solution.

Annual process of risk assessment and Audit Plan drafting

During 2017, Sabaf carried out the annual process of identifying and assessing the main corporate risks, aimed at updating the previous risk assessment and preparing the risk based Audit Plan for 2018, approved by the Board of Directors with the favourable opinion of the Control and Risk Committee having heard the Board of Statutory Auditors and the Director responsible for the Control and Risk Committee, in the meeting held on 19 December 2017.

The Risk Assessment activity was carried out in compliance with the new method developed by Sabaf's Internal Audit in the second half of 2017. In particular, the scales used for risk assessment and the integration of the risk catalogue ("Risk Model") were revised with the aim of adopting an integrated methodology, also valid for carrying out Risk Assessments in the IT, ISO 14001:2015 and ISO 9001:2015 areas. In consideration of this update, the Group risk identification and assessment process envisaged the broad involvement of all the Parent Company department heads, also in their capacity as representatives for the Subsidiaries, each for their respective areas, and taking into

consideration the risks that may assume significance in terms of medium-/long-term sustainability.

In line with the Guidelines, the potential effects are assessed for each risk measured (in terms of impact and likelihood according to qualitative/quantitative scales), analysing the causes and evaluating the existing strategies and mitigation systems.

For further details on the main risks arising from the analysis carried out, reference is made to the Report on Operations.

Based on the information and evidence collected, and after consulting with the Control and Risk Committee, the Board of Directors believes that the Internal Control and Risk Management System in place in 2017 is adequate and effective in relation to the dimensions and characteristics of the Group and suitable overall for achieving the company targets.

10.1. DIRECTOR IN CHARGE OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

The Board of Directors has identified CEO Pietro Iotti as the director responsible for supervising the operations of the Internal Control and Risk Management System.

***** ****

Under the scope of the responsibilities entrusted to him by the Board of Directors, the CEO has executed the guidelines and implementation of the Internal Control and Risk Management System, defined by the Board of Directors:

- being responsible for the identification of the main corporate risks, to be regularly submitted for examination by the Board of Directors, taking into account the characteristics of the activities conducted by Sabaf and its subsidiaries;
- implementing the guidelines defined by the Board, taking care of the planning, implementation and management of the internal control and risk management system, constantly checking its adequacy and efficiency;
- updating the Internal Control and Risk Management System with regard to the dynamics of the operating conditions and legislative and regulatory scenario;
- asking, where deemed necessary, the Internal Audit department to conduct checks into specific operational areas and into compliance with internal rules and procedures in the execution of corporate operations, at the same time notifying the Chairman of the Board of Directors, the Chairman of the Internal Control and Risk Committee and the Chairman of the Board of Statutory Auditors;
- promptly reporting to the Control and Risk Committee with regard to problems and criticalities that have emerged when conducting its activities or of which it has been notified, so that the Committee can undertake the appropriate initiatives.

10.2. HEAD OF INTERNAL AUDIT

On 5 May 2015, the Board of Directors, upon the proposal of the Director in charge of the Internal Control and Risk Management System, subject to the favourable opinion of the Control and Risk Committee, as well as after hearing the Board of statutory auditors, renewed the engagement of an independent external company that provides internal control services, Protiviti s.r.l., to carry out the functions of the Internal Audit Department for the years 2015-2017 as well. It then identified Emma Marcandalli, the company's Managing Director, as Head of that department. This decision has been made because the professional resources to establish such a function are not available internally and also taking into account the greater skills and efficiency that a specialist outside firm can offer with regard to internal control given the size of Sabaf.

Upon engagement renewal, the Board of Directors established the remuneration of the Head of Internal Audit in compliance with corporate policies and market rates, and laid out her functions in line with the Corporate Governance Code.

The Head of the Internal Audit department is responsible for verifying that the Internal Control and Risk Management System is working properly, and is not responsible for any operational areas and remains in office for the entire term of the Board of Directors which appointed him/her.

The Head of the Internal Audit department reports to the Board of Directors, which approves the Internal Audit Plan, as well as the appointment, and also defines the termination of the engagement.

In 2006, Sabaf S.p.A. adopted the Organisational Management and Control Model ("Organisational Model"), as suggested by Legislative Decree 231/2001, aimed at preventing the possibility of significant administrative offences and crimes with regard to the Decree, which involve the administrative responsibility of the Company in cases where certain types of crime are committed by employees or collaborators in the interest or for the benefit of the Company. In the definition of the Model, Sabaf S.p.A. analysed corporate activities, training processes and the implementation of decisions within the individual corporate areas, as well as internal control systems.

Based on the results of the analyses and the areas identified as potentially at risk, Sabaf S.p.A. deemed it appropriate to regulate the processes with regard to the following types of crimes and offences under Legislative Decree 231/2001: Articles 24 and 25 (offences against the Public Administration), Art. 25- *bis* (as regards falsehood in instruments or signs of recognition), Art. 25-*ter* (corporate crimes, including the offence of corruption between private individuals), Art. 26-*sexies* (offences and administrative offences of market abuse), Art. 25-*septies* (offences in the field of safety, hygiene and health at work), Art. 25-*octies* (offences of receiving stolen goods, money laundering and use of money, goods or assets of illicit origin as well as self-laundering), Art. 25-*undecies* (environmental crimes), and Art.

The Supervisory Body (appointed on 8 May 2012 by the Board of Directors of Sabaf S.p.A. for the period 2012-2014, and subsequently re-appointed by the Board of Directors on 5 May 2015 for the period 2015-2017) comprises Nicola Picchi, independent director of the Company (Chairman) and Emma Marcandalli, Head of the Internal Audit Function.

Moreover, an annual expense fund of € 20,000 was made available to the Supervisory Body to carry out its tasks, which was not used in 2017.

During the financial year, through the Internal Audit function and in line with its Audit Plan, the Supervisory Body carried out checks on the effective application and awareness of the rules of control and conduct. In addition, during the year specific preliminary investigation activities were carried out, regarding which the Supervisory Body reported to the company's administration and control bodies. Finally, following the updating of the Organisational Model in 2016, some training sessions were provided to Sabaf personnel.

The Body met 4 (four) times during the year and:

- analysed the new regulations on administrative liability of Entities and started the activities preparatory to the updating of the Organisation, Management and Control Model pursuant to Legislative Decree 231/01,

If there is a tie in the voting between two or more lists, the most senior candidates in terms of age will be elected.

In case the minimum prescribed number necessary of standing Auditors or Alternate Auditors belonging to the less represented gender is not elected, one shall proceed to the replacement of the most recently elected candidate of the more represented gender of the majority list with the next candidate of the less represented gender who is part of the same list.

If it is not possible to proceed, in full or in part, with the appointments following the above methods, the Shareholders' Meeting will resolve with a majority decision.

Diversity policies

On 26 March 2018, the Board of Directors of Sabaf S.p.A. at the suggestion of the Remuneration and Nomination Committee, with the opinion of the Board of Statutory Auditors, adopted a Policy on the composition of the Corporate Bodies.

This Policy sets out the Company's guidelines on the characteristics considered functional to ensuring an optimal composition of the corporate bodies (Board of Directors and Board of Statutory Auditors), with the aim of guiding the names put forward by the Shareholders when renewing the Corporate Bodies, so that the benefits that can derive from a balanced composition of the Board and Board of Statutory Auditors inspired by criteria of diversity are taken into consideration.

In the same way as with the Board of Directors, also with regard to the composition of the Board of Statutory Auditors, the Policy adopted by Sabaf is in addition to (but does not replace) the regulatory requirements and the provisions of law in force and illustrates the characteristics deemed essential for the Statutory Auditors to be able to carry out their duties in the most effective way; specifically:

- a) **Independence, training and professional experience**: Please refer to the requirements of the mandatory regulations and Corporate Governance Code (according to Article 8.C.1, Statutory Auditors may be qualified as independent auditors on the basis of the same criteria as those laid down for Directors).
- b) **Gender**: As already defined in the Articles of Association (which implements the law provisions on gender distribution), gender balance must be guaranteed within the Board of Statutory Auditors.
- c) **Age and seniority in office**: It is considered useful to ensure a balanced combination of different seniorities in office - as well as age groups - within the Board of Statutory Auditors.
- d) **Numbers**: Pursuant to the Articles of Association, the Board of Statutory Auditors is composed of three Statutory auditors and two deputy auditors.

Furthermore, the Policy stresses the need for all Statutory Auditors to ensure that they have sufficient time to perform their duties diligently.

The Board of Directors, with the support of the Remuneration and Nomination Committee and the Board of Statutory Auditors, is responsible for monitoring the implementation of the Policy, the results of which will be analysed starting with the renewal of the Corporate Bodies envisaged during the Shareholders' Meeting convened on 8 May 2018.

The Policy on the composition of the Corporate Bodies is published on the company website at www.sabaf.it, under the section "*Investors - Corporate Governance*".

- the Chairman establishes the procedures for requesting the floor and the order of the floor. The Chairman and, at his invitation, those who assist him, shall respond to the speakers at the end of all interventions on the items under discussion, or after each intervention, also taking into account any questions made by members prior to the Meeting which have not already been answered by the Company;
- those who have asked for the floor have the right to make a brief reply;
- the Chairman, taking into account the object and the importance of the individual items on the agenda for discussion, as well as the number of requests to speak, and any questions raised by members prior to the Meeting that have not already been answered by the Company, predetermines the duration of interventions and replies in order to ensure that the Meeting can conclude its work in a single meeting.
