Explanatory notes

Accounting standards and scope of consolidation

The Interim Management Statement of the Sabaf Group at 31 March 2022 is prepared in compliance with the Stock Exchange (Borsa) Regulation that establishes, among the requirements for maintaining the listing on the STAR segment of the MTA, the publication of interim management reports.

This report does not contain the information required in accordance with IAS 34.

Accounting standards and policies are the same as those adopted for preparation of the consolidated financial statements at 31 December 2021, which should be consulted for reference. All the amounts contained in the statements included in this Interim Management Statement are expressed in thousands of euro.

We also draw attention to the following points:

- The Interim Management Statement was prepared according to the “discrete method of accounting” whereby the quarter in question is treated as a separate financial period. In this respect, the quarterly income statement reflects the income statement components pertaining to the period on an accrual basis;
- the financial statements used in the consolidation process are those prepared by the subsidiaries for the period ended 31 March 2022, adjusted to comply with Group accounting policies, where necessary;
- the parent company Sabaf S.p.A., the subsidiaries Faringosi Hinges, Sabaf Brazil, Sabaf Turkey, Sabaf China, A.R.C., Okida Elektronik, Sabaf U.S., Sabaf India, C.M.I., C.G.D. and Sabaf Mexico Appliance Components;
- compared to the consolidated financial statements at 31 December 2021, Handan ARC Burners Co. Ltd. is no longer consolidated. The 51% investment, which was held indirectly through A.R.C. s.r.l., was sold to a third party during the first quarter of 2022. The plant, equipment and inventories of Handan ARC Burners Co. Ltd. were simultaneously acquired by Sabaf Appliance Components Kunshan Co., Ltd. (Sabaf China). This operation did not have a significant impact on the Group's shareholders' equity.

The Interim Management Statement at 31 March 2022 has not been independently audited.

Management Statement

Results of operations

In the first quarter of 2022, the Sabaf Group reported revenue of €70.9 million, an increase of 9.3% versus the figure of €64.8 million in the first quarter of 2021.

The increase in revenue is mainly attributable to the increase in sales prices, which were adjusted on several occasions during 2021 and in the first quarter of 2022 to compensate the ongoing increases in raw material and energy costs. Sales volumes were stable compared to the first quarter of 2021. The market demand remained at very satisfactory levels in Europe, North America, Africa and the Middle East, while South America and Asia showed a decline. The product family with the highest growth rates is Hinges, thanks to the start of deliveries to large customers on new household appliance platforms.

EBITDA for the first quarter of 2022 reached €13 million, or 18.4% of sales, down compared with the €15.1 million of the first quarter of 2021 (23.3% of sales), which benefited from an exceptionally high demand and raw material costs rises that were not yet significant. The most recent increases in sales price lists led to a marked improvement in profitability compared with the fourth quarter of 2021 (which closed with EBITDA of €10 million, or 16% of sales), despite the still high impact of energy costs (higher costs of €1.8 million compared with the first quarter of 2021).

EBIT was €9.1 million (12.8% of turnover), 17.6% lower than the €11 million recorded in the same quarter of 2021 (17% of sales). Net profit for the period was €7.5 million (€8.5 million in Q1 2021 and €0.6 million in Q4 2021).

Working capital, investments and financial debt

At 31 March 2022, the impact of the net working capital on revenue was 29.2% compared to 26.1% at 31 December 2021. In absolute terms, net working capital¹ amounted to €82.7 million compared to €68.6 million at the end of 2021. The growth in working capital reflects higher levels of activity compared to the fourth quarter of 2021 and the need to temporarily increase stock levels to ensure continuity of production and deliveries in a global logistics scenario that is still very turbulent and where procurement difficulties remain, especially for electronic components.

¹ Net working capital is the sum of Inventories, Trade receivables, Tax receivables, Other current receivables, Trade payables, Tax payables and Other payables.

Net investments for the quarter came to €5.8 million (€6.7 million in Q1 2021 and €23.8 million for the whole of 2021).

At 31 March 2022, net financial debt was €75.5 million (€67.6 million at 31 December 2021 and €59.6 million at 31 March 2021), against a shareholders' equity of €131.5 million.

Significant non-recurring, atypical and/or unusual transactions

During the first quarter of 2022, the Group did not engage in significant transactions qualifying as non-recurring, atypical and/or unusual, as envisaged by the Consob communication of 28 July 2006.

Outlook

The increase in sales from new projects is continuing in line with forecasts, although the uncertainty caused by the prolongation of the conflict between Russia and Ukraine.

Based on the information available, the Sabaf Group confirms for 2022 its revenues ranging from €275 to €280 million, (up by +5 / +6% on 2021) and excellent profitability, in line with historical averages.

These forecasts assume a macroeconomic scenario not affected by unpredictable events. If the scenario were to change significantly, actual figures might diverge from forecasts.

Statement of the Financial Reporting Officer pursuant to Article 154-bis (2) TUF

The Financial Reporting Officer, Gianluca Beschi, declares that, pursuant to paragraph 2, Article 154-bis of Legislative Decree 58/1998 (Consolidated Finance Act), the accounting information contained in the Interim Management Statement at 31 March 2022 of Sabaf S.p.A. corresponds to the Company's records, books and accounting entries.

Ospitaletto (BS), 12 May 2022
