--	---

Founded in the early 1950s, SABAF has grown consistently over the years to become the key manufacturer in Italy - and one of the leading in the world - of components for kitchens and domestic gas cooking appliances.

The product range features four main categories: valves, thermostats and burners for gas cooking appliances and hinges for ovens, washing machines and dishwashers.

Unparalleled technological expertise, manufacturing flexibility, and the ability to offer a vast range of components - tailor-made to meet the requirements of individual manufacturers of cookers and built-in hobs and ovens and in line with the specific characteristics of its core markets - are Sabaf's key strengths in a sector featuring major specialisation, constantly evolving demand and an ever-increasing orientation towards products assuring total reliability and safety.

The Sabaf Group has some 700 employees. It operates through its direct parent company Sabaf SpA and the subsidiaries Faringosi-Hinges - leader in the production of oven and dishwasher hinges - Sabaf do Brasil and Sabaf Turkey - active in production of burners for the South American and the Turkish markets. Sabaf is also present through subsidiaries in Mexico, the USA and China.
